

# Key facts and findings

**Western Balkans Investment Framework** supports strategic projects:

**EU funding**  
(2015 to mid-2025)

**€2.7 billion**  
allocated

**€527 million** paid

**to address the infrastructure gap and complete the core European transport network in the Western Balkans**

## What did we find?

- Delays in projects starting up and slow progress
- Shortcomings in supervision and monitoring of project implementation
- Issues with sustainability of projects and visibility of EU support

**The core European transport network is unlikely to be completed by 2030**
