Welcome!

Welcome to the 22nd Open Doors Day of the European institutions.

We have once again planned a jam-packed day, full of activities, debates, concerts, games and interesting information for young and old.

This time, however, is a bit different.

With the next **European elections** only a few days away, the future direction of Europe lies more than ever before in the hands of its citizens.

Some 400 million people will be called to vote on 22-25 May and will determine who will be in charge of the European Union for the next 5 years.

Never before were the stakes so high, with the results of the elections being determinant in deciding on the future President of the European Commission, the Union's executive body.

What better time to take a look inside these illustrious institutions, discover their role, their history and - perhaps most importantly - their vision for the future.

Who will you vote for on 22-25 May? What influence will you have on the future of the European Union? Visit the European institutions on Saturday 17 May to find out!

Enjoy your day!

The Open Doors Day team.

Discover the European institutions

The European institutions are mainly situated in the "European quarter" of Brussels, an area extending from Place du Luxembourg, the tunnels of the centre, along the rue de la Loi and rue Belliard and up to the Rond-Point Schuman.

LET'S CELEBRATE EUROPE,
EUROPE IS FOR YOU
AND BY YOU!

Every year, we celebrate Europe in May. Why May? Because the 9th of May commemorates the famous speech of the French Minister of foreign affairs, Robert Schuman, that laid the foundation for the European construction. This year, the European celebrations will have two highlights.

The first event will take place on Sunday the 11th of May, on the occasion of the 25th anniversary of the "Iris Day" (Fête de l'Iris/Irisfeest), the official holiday of the Brussels Capital Region. For the second consecutive year, the European Commission acts as a partner for this event in order to mark Brussels' openness towards Europe. The "European village" will open its doors from 12 p.m. to 6 p.m. on the Europe Roundabout (pedestrian area in front of the Central Station).

The second event is scheduled on Saturday the 17th of May. Like every year, the European Commission will open its doors to the public between 10am-6pm (Berlaymont building, 200 rue de la Loi/Wetstraat, last entrance at 5.30 p.m.). Under the theme "European citizens and democracy", this year's edition will enable visitors to discover what Europe is doing for its citizens in their everyday life. Workshops, interactive games, exhibitions, attractions as well as artists from different categories will illuminate the celebrations throughout the day. On the eve of the European elections, visitors will have the opportunity to look behind the scenes of the Commission and to discover the College room - the epic room where decisions are taken - on the 13th floor of the Commission.

A flavour of what you will discover during your visit at the European Commission:

- A **photo exhibition** on urban development in the EU and the use of the EU regional funds in the city of Brussels. Discovery of the new comic strip "Partenaires" in the presence of the cartoonist who will offer you an autographed copy.

- The **fight against counterfeiting** and what Europe is doing to stop this scourge which is putting our health (medications and food products), our environment (flora and fauna), our business activities (illegal patents and copies) and our security (replacement components) at risk. The public awareness of illegal and counterfeit products' dangers and a great vigilant approach must be recommended, particularly for e-commerce. Say no to counterfeit. Choose the original ones!

INSIDE

Inside the Berlaymont building – 200 rue de la Loi

- The **European statistics office Eurostat** and the Eurobarometer which discloses useful data on EU-member states and its peoples. Quizzes about Europe will enable you to win some souvenir gifts.

- The EU action for the **fight against global warming** and its consequences on the world and on future generations.

- An **interactive quiz on the Euro currency**. Learn about the Banking Union, about what Europe is doing to overcome the economic crisis and about how the European budget is established. Produce our own medal specially made for the event.

- An overview of the over **18,000 research projects** the EU budget has funded throughout the Union for the last 7 years. Discover the results of these research projects and take part in scientific experiments aimed at all ages, for example: how to extract DNA from tomatoes. You will have the opportunity to meet scientists who are eager to share their passion and knowledge with you.

- A sample of **high-quality European agricultural products**. Take part in "green" workshops to understand how European agriculture is an integral part of our life and our roots. Make your own milk-shake using a bicycle!

- Everything you always wanted to know about **studying and working in and/or for Europe** (but were afraid to ask!). Do you know all there is to know about Erasmus+? How it can work for you? Do you

know how to best prepare for open competitions in order to work in the European institutions? How to be a European citizen in a meaningful way?

- Interactive exchanges on **food labelling and management of food waste**. You will discover what Europe does to protect the consumers against hazardous products.

- A real **European Commission conference room** where you can join our interpreters and try out for yourself what it means to simultaneously interpret from one European language to the next. Take part in debates and speeches in the Schuman room all day long. Explore different themes: consumers' rights, the tobacco directive, the social dimension of Europe, the demographic evolution, the European education and culture, the Greek Presidency or the importance to vote in the European elections.

- **Free comic books** on the many dimensions of European integration. An on-the-spot "Comic Book Corner" will be provided for our youngest visitors to sit and enjoy their reading. Teenagers are heartily invited to the "i-Pad café", where they will be given the opportunity to experiment and play with the new European app.

- All there is to know about **European Union Development Aid and Humanitarian Assistance**. Did you know that the European Union is the world's leading donor and that the EU's aid directly improves the lives of millions of the world's most vulnerable people. You will see how the EU helps to shape a better world for all.
